

Windrechtsfibel. Von A wie Abstandsfläche über E wie EEG bis Z wie Zuwegung einschließlich Rechtsprechungsübersicht. Wind power law glossary. Legal aspects from A to Z.

Maslaton, Martin.

(In German) 2. ed. ISBN 978-3-941780-04-0 Leipzig (Germany). Verlag für alternatives Energierecht. 2011. 488 p.

The wind power law glossary was compiled upon the request of many clients who wanted to have short but comprehensive information on the boundary conditions of wind power in energy law and public law as well as on other general facts relating to wind power. This is the second, completely revised edition, again in alphabetic order. (orig./RHM)
